

TYPE 96 FOOD – Gray Cover

Type 96 Food hose is the right hose for pneumatic handling of bulk, non-fat foods and gravity-drop service. Type 96 Food hose can be used for handling plastic pellets and powders where contamination is a problem. This hose is excellent for plant process and switch lines. Complies with the Food and Drug Administration current regulations for aqueous foods. This hose has been designed to handle a **vacuum rating of 15 inches of mercury**. Depending on the application, Type 96 Food hose can be furnished with or without a static wire. The natural rubber tube is non-toxic and abrasion resistant. The corrugated SBR cover resists the harmful effects of the weather. The coiled wire in the two plies of reinforcement maintain the roundness of the hose.

Cover Color: Gray
Oil Resistance: Limited
Construction:
Tube: Sizes 1-1/2", 2", 2-1/2" have a 3/32" thick tube
 All other sizes have a 1/8" thick tube
 Amber colored NR
Cover: 1/16" thick gray SBR rubber – corrugated
Reinforcement: Two to three plies of fabric with helical wire
Temperature Range: -40°F to +160°F
 -40°C to +71°C
Packaging: 50 ft. lengths maximum, for flour use 25 ft. maximum
 Hand built – \$250.00 minimum order per size
 Specify **static ground wire**, if required. Will be built and grounded – no charge

TYPE 120 FOOD – Gray Cover

Type 120 Food hose is designed for bulk truck discharge and pneumatic handling of non-fat food grade materials, plastic pellets and powders. Type 120 Food hose complies with the current FDA regulations. This hose can be furnished with or without a static wire. It is also available with straight or enlarged ends. The natural rubber tube and SBR cover are both abrasion resistant. The two plies of cord fabric reinforcement allow the hose to be flexible enough to be collapsed and rolled up on itself. In service, this hose will round out when fully pressurized.

Cover Color: Gray
Oil Resistance: Limited
